

WALRUS SONG
by Janet Lawler
(sing to tune of Jingle Bells)

Walrus lives a-way up north,
where Arctic breezes blow.
He has big tusks and whiskers, too,
and weighs a ton, you know—oh!

He dives for clams. His flippers flap.
He makes a lot of noise.
He hoots and whistles, growls and toots.
Join in, girls and boys...singing:

Hoot hoot HOOT! Toot toot TOOT! Ding-a-ding-dong, *ROAR!*

Walrus plays in water and with friends on icy shores.

Hoot hoot HOOT! Toot toot TOOT! Ding-a-ding-ding DONG!

Making noise together, we have fun with *WALRUS SONG!*

Optional hand play for walrus features/actions:

tusks: put fists up in front of mouth and point index fingers down

whiskers: place backs of hands to cheeks; wiggle all fingers

dive: thrust hands/arms forward in diving motion

flippers: head down, arms low by hips, flap arms and hands
